Tel: (647) 620-2284

Toronto, ON

- 14 years of experience in **Architectural Design and Development**, specializing in residential, educational and public projects.
- Proficient in **AutoCAD, Revit, SketchUp, V-Ray, Lumion, Twinmotion, Adobe Creative Cloud (Acrobat, Photoshop, Premiere Pro & Indesign) and the Microsoft Office suite**. Recognized for high-quality presentations.
- Design and Development of multiple projects. In the residential field, working on buildings ranging from low-rise Part 9 SFD's to mid-risers. In the institutional sector, designing K-12 schools, kindergartens and child-care centres. In the public & commercial sector, working on visitors' centres, office buildings, community centres and places of worship.
- Experienced in construction documentation and contract administration. Strong knowledge of engineering standards construction technology and building science.
- Coordinated with multidisciplinary teams. Working well both independently & in teams.
- **Visualizer and Aerial Photographer**. Embedding architectural renders into their designated real-world environments. Production of 3D site-documentation and aerial videos.
- Avid learner. Enthusiastic about new technologies and materials.
- Excellent written and oral communication skills.

## Professional Experience

Architectural Designer and Visualizer 2020 – Present

- Freelance work in architectural design, drafting, modelling and aerial photography.

Architectural Project Designer May 2018 – October 2021

Peter Higgins Architect Inc., Toronto

- Planning residential projects in Toronto and the GTA. Leading projects from initial client meetings to developing submission-ready designs for Zoning, Committee of Adjustment, Permits and Construction Documents.
- Communication and building working relationships with Clients, Consultants & City Officials.
- Preparing 3D models for client presentations.

Lead Architect 2011 – January 2018

Rachel Walden Architecture and Town Planning, Israel

- In charge of planning various projects including K12 schools, day care centres, kindergartens, community centres, places of worship and visitors' centres.
- Led multiple projects through all the stages of the planning process, from client meetings, research, analysis and initial concepts to permits, construction documentation & contract administration
- Resolved issues both in the office, during planning stages and on the field, with contractors & consultants.
- Specialized in project visualization: graphic presentation, drawings & diagrams, detailed 3D visualizations.

Project Architect 2010 - 2011  
El-Or Engineering, Israel

- Planning residential (both mid-rise and low-rise buildings), industrial and institutional buildings.
- Working on permit and construction documentation. In charge of 3D modelling and visualization.

Kitchen and graphic designer 2009-2010  
*Notaly Inc.*, Israel

- Worked with clients planning customized kitchens for private homes and with builders developing kitchen layouts for real estate projects. Assisted in designing the company's website and publication.
